- Clean and long-lasting source of energy
- Good for cognitive health and weight management
- Great for KETO diet or "MCT Coffee"
- High in Good Fats and Low in Carbs
- Odorless and Flavorless
- Unique metabolic and functional properties

Description

Rosun Organic Coconut MCT Oil Powder is a mild tasting, convenient form of Organic Coconut MCT (medium chain triglyceride) oil, naturally processed to offer the benefits of these exceptionally healthy oils. A cousin of coconut oil, concentrated Organic Coconut MCT oil powder is a better source of specific coconut fatty acids that help the body make energy. Organic Coconut MCTs are metabolized in the liver and absorbed directly into the bloodstream from the digestive tract. This provides a direct source of immediate, slow burning, ketogenic energy for the whole body, while nourishing the intestinal cells. Organic Coconut MCTs are a fat-burning fat, fueling and revitalizing metabolism and supporting muscle building and healthy brain function. Organic Coconut MCT oil powder is an instant, easy to use fuel that fits conveniently into your active lifestyle.

Product Process

Rosun Organic MCT Oil Powders are made using a medium chain triglyceride oil produced from fresh organically grown coconut in a sustainable manner. The MCT powders are manufactured exclusively in our production facility through a process of Micro Encapsulated Spray drying. The healthy fats contained in our Coconut MCT Oil Powders are encapsulated with a soluble prebiotic fiber or Maltodextrin to make products suitable for a variety of formulation uses.

Rosun MCT Oil Powder Applications

Soluble in hot or cold liquids, our MCT Oil Powders are perfect for shakes, smoothies and coffee. They are also suitable for a wide variety of energy-focused food and beverage products. MCT Oil Powders are popular ingredients for sports nutrition and meal replacements, and can add a nutritional boost to bars, cookies and other plant-based baked goods.

Packaging

20 Kg Food Grade HDPE Drum or Carton Box with Poly Inner

Rosun Coconuts Products Company is dedicated to sustainability and purity in manufacturing, carefully selecting quality raw materials to bring the most nutritious products in the world to you. We are committed to produce the highest quality food ingredients, herbal phytonutrients and healthcare products how nature intended - free from herbicides, pesticides, toxins and chemicals, with nothing synthetic added - ever.
